

Timeline

of relevant work & experience

Timeline

Designed and implemented the UI architecture and code for one of the industry's first enterprise public MS SharePoint sites

MIX 08 Grand Prize Winner

MIX 07 Honorable Mention

Led a major re-branding of Intermountain Healthcare internal and external services

Developed, documented and deployed an enterprise series of UI components

Successfully championed and launched one of the first fully table-less CSS corporate websites

Used contextual interviews and card sorts to develop ERS site architecture

Helped author several successful papers and grants

Married into the Chinese culture (ongoing Asian cultural immersion)

Revised SOP's for several laboratories:
Observed student researchers - found process pain-points and re-wrote manuals, labels and records to tie reagents, equipment, and timing to specific procedures - greatly reduced errors and surplus

Became well known for, and taught several workshops on note-taking because of hierarchical and iconographic approach

Entered and won several University-wide essay and art contests

Crafted and sold flutes and other Native American items

Painted several 1-story murals in schools & orphanages

Organized 2-story Gymnasium stipple-point mural of Albert Einstein
